

The screenshot displays the EAST software interface. The main window shows a list of chemical waste entries, each with a label (L10-L30), a quantity in parentheses, and a description. The descriptions include terms like "44/and solid adj1 waste\$", "44/and urban adj1 solid waste\$1", "44/and trituated near5 urban adj1 solid", and "44/593 and urban adj1 solid adj1 waste\$2". The list ends with "L30: (133187) Serial No. [redacted]".

A search results window is open on the right side of the screen. It has a search bar with the text "USPAT;US-PGPUB". Below the search bar, there are checkboxes for "Plurals" and "Synonyms", both of which are checked. The search results window also displays the date "12/07" and the serial number "S.N. 10/077,889".

At the bottom of the screen, there is a table with the following columns: "U", "1", "Document ID", "Issue Date", "Pages", "Title", "Current OR", and "Current XRef". The table is currently empty.
